The Powertech Docs folder contains documents from Powertech's Environmental Report submitted to the NRC which is the original info NRC used to develop the Supplemental Environmental Impact Statement. I copied excerpts relevant to the NHPA 106 process.

Unfortunately, I created 2 Programmatic Agreement Folders. The second one contains the Programmatic Agreement NRC developed as part of their “tiered approach” to the NHPA 106 process. The process is still underway. I also included the cover letter from the ACHP for their signature page for the PA.
